

Request for Qualifications for Engineering Services

The City of Hillsboro is seeking a qualified engineering firm to support its development of multiple infrastructure improvement projects. Interested firms may submit their qualifications to the City by 12:00 on Tuesday, January 11. The projects will include replacement of water and/or sewer lines and associated components as well as street improvements, including rehabilitation or reconstruction of sections of street and associated drainage, adjacent to the water and/or sewer line improvements. The selected engineer will also provide advice and guidance to the City regarding development of a street improvement program of work that will be ongoing over the next 24 months or longer. For the full RFQ, interested firms may contact Richard Reinhardt or Megan Henderson at the City of Hillsboro: 254-582-3271, rreinhardt@hillsborotx.org, or mhenderson@hillsborotx.org.
