

**ORDINANCE NO. 02024-11-25**

**AN ORDINANCE AMENDING CHAPTER 13, UTILITIES, ARTICLE 13.200 RATES AND CHARGES, SECTION 13.207, RATE SCHEDULE FOR WATER USAGE; REPEALING ALL ORDINANCES OR PARTS OF ORDINANCES IN CONFLICT HEREWITH; CONTAINING A SEVERABILITY CLAUSE; AND PROVIDING FOR PUBLICATION AND AN EFFECTIVE DATE.**

**WHEREAS**, the City Council has previously adopted the 2022-2027 Strategic Plan for the City of Hillsboro, which includes Strategic Goals to Build Better Infrastructure and Deliver Basic Services; and

**WHEREAS**, the City has also previously borrowed funds from the Texas Water Development Board for the construction of an elevated water tower to serve the Industrial Park and associated pressure plane; and

**WHEREAS**, the City committed to maintain sufficient water rates to cover maintenance, operations and debt service, including adequate reserves; and

**WHEREAS**, the City of Hillsboro has learned that Aquilla Water Supply District will soon also receive funding from the Texas Water Development Board for major improvements, and that the City of Hillsboro will be responsible for \$2,000,000 in associated debt service; and

**WHEREAS**, in addition to meeting the current obligations and Aquilla's project needs, the City Council believes that Hillsboro must initiate significant improvements to its distribution system in order to improve system reliability and decrease water loss; and

**WHEREAS**, the City of Hillsboro determined that an increase in water rates and fees was necessary to meet all of the above demands and to thereby serve the public interest of the citizens of Hillsboro by providing safe and reliable water service, and therefore increased rates in June of 2024 by an amount calculated to meet present operating costs and modest self-performed improvements, but not including debt service for Hillsboro or Aquilla's future projects; and

**WHEREAS**, shortly thereafter, Aquilla Water Supply District increased rates for the City of Hillsboro by 33% or just under \$1 million for fiscal 2025 beginning October 1, 2024; and an additional rate increase of 24% would be needed in order to cover that full amount; but the City Council prefers to make a smaller increase and attempt extraordinary savings measures to address this increase;
